EG-2003E series

Single Shaft / Shaftless Surface Winding Slitter Rewinder

APPLICATIONS

- Kraft paper / Liner
- Coated / uncoated Paper, board
- Laminated paper / Aluminum foil / Metalized film
- Plain, Varnished, Embossed paper / 100% Recycled paper
- Cigarette paper
- Woodfree paper

NICELY MACHINERY DEVELOPMENT CO., LTD

EG-2003E series

SINGLE SHAFT / SHAFTLESS SURFACE WINDING SLITTER REWINDER

The EG-2003E series is a two-drum surface winding slitter rewriter designed for various paper applications, including paper mills, food packaging, and paper tube factories. This paper slitter delivers excellent productivity, and the upper drive roller automatically adjusts the contact pressure to align with the changing diameter, ensuring proper winding tension. The cutting can be performed using either standard circular slitting blades or optional pneumatic cutters, offering flexibility in tool selection. Several optional functions, such as an automatic knife positioning, shaftless rewinding, and automatic roll pusher are available to enhance productivity and reduce labor intensity. A customized roll handling and packaging system can be configured according to the customer's production floorplan.

Standard Features

- Shaftless unwind stand
- Circular shear slitting
- Trim waste air blower
- Top rider roller
- Finished roll pusher
- PLC control system incorporated with HMI touch screen

PAPERS

Optional Features

- Enhanced shaftless unwind stand
- Motorized web threading
- Pneumatic cutter set
- Auto. knife positioning
- Trim suction blower with crusher
- Shaft handling system
- Enhanced fencing & safety implements

General Specifications

| | |
|----------------------|-----------------------|
| Roller width | 1500 – 3200 mm |
| Unwind diameter | 1200 / 1500 / 2000 mm |
| Min. slit width | 50 mm, and up |
| Max. rewind diameter | 1200 / 1500 / 1700 mm |
| Machine speed | 400 / 600 / 800 M/min |

Other specification is offered at request.
