EG-9000 series

Spooling Slitter Rewinder

APPLICATIONS

- Film laminations
- Glass Fiber laminations
- Pressboard
- Mica tape for wire & cable
- Cover tape
- Carrier Tape
- Masking Tape / Hot Melt Tape

NICELY MACHINERY DEVELOPMENT CO., LTD

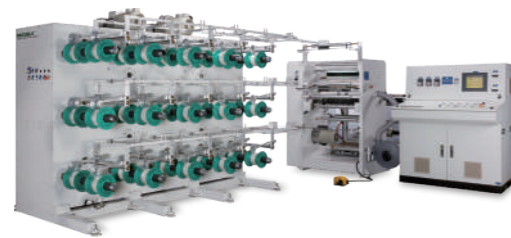

EG-9000 series

SPOOLING SLITTER REWINDER

The EG-9000 series spooling slitter rewriter offers remarkable versatility with its winding options and demonstrates excellent performance in handling various materials, such as mica tape for wire and cables, adhesive tape for flexible packaging, and hologram for security threads. This spooling slitter rewriter also provides unparalleled flexibility, allowing customers to achieve disc winding (pancake) using other Nicely's integral models and add a spooling line for narrower spooling winding as needed.

Featuring a minimum slitting width of 2mm and a modular design, it effortlessly expands from a basic set of 6 spools to meet the specific requirements of customers working with different materials. Additionally, the spooling slitter offers versatile winding patterns, including traverse, taper, stag, and flanged winding, ensuring optimal handling of insulation materials. For those in search of a high-performance spooling slitter that can cater to their unique needs, the EG-9000 series is the ideal choice. The EG-9000 series is the ideal choice for those seeking a high-performance spooling slitter that can meet their specific needs.

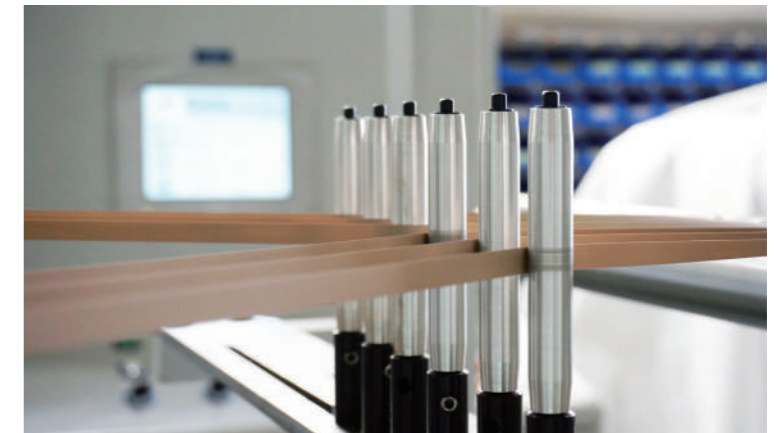

Standard Features

- Shafted unwind stand
- Shear, score or razor slitting
- Trim removal system
- Auto. tension control
- PLC control system incorporated with HMI touch screen

INSULATION MATERIALS

Optional Features

- Shaftless unwind stand
- Splice device
- Differential rewind shafts
- Trim waste winder
- Enhanced fencing & safety implements

General Specifications

Roller width	600 mm
Unwind diameter	600 mm
Min. slit width	2 mm and up
Max. rewind diameter	450 mm
Traverse range	250 mm
Machine speed	200 M/min

Other specification is offered at request.
